

Expert Workshop: “Wind & Power-2-X”.

March 25, 2021

The EERA Joint Program on Wind is organizing a workshop on the R&I needed for wind and Power-2-X.

The aim is to bring together an expert group of scientists/researchers and industrial representatives interested in the subject matter and to have in-depth scientific presentations and discussions. The workshop is free of charge but registration is required.

The main focus is on the symbiosis between wind power and Power-2-X Focus is, including, but not limited to, Wind technology (in conjunction with P2X), P2X technologies/infrastructures, Offshore energy hubs/islands, Large scale integration studies, Offshore wind development, Regulatory & grid code aspects, etc.

CALL FOR PRESENTATIONS:

Apart from the already confirmed speakers, we are actively looking for relevant contributions on the matter.

If you want to contribute, please contact f.riccionicapelli@eera-set.eu and/or niac@dtu.dk

Deadline: Please send your proposal before February 10th, 2021

Dates: Thursday March 25, 2021 (online)
